

Hear from our volunteers...

Coming from a background of working with young people with Autism, Asperger's, ADHD and behavioural problems, becoming an Independent Support Volunteer for Adviza was definitely something I was interested in being a part of. I found both the online training and the face to face training very interesting and was particularly impressed with the delivery of the face to face training. I like the fact that I was offered the opportunity to shadow before taking on my own cases and am still offered lots of shadowing opportunities and ongoing support which is fantastic.

Right from the start I was made to feel both very welcome and also valued which has been great.

I feel very strongly about the various issues raising a child with special needs throws up and am pleased to be playing a small part in help parent get the best possible outcomes for their children.

Jen McCormack
Independent Support Volunteer
